Dear Friend,

The Shamanic Healing Institute is presenting the intensive training program, "The Essentials of Shamanism." The course is designed for individuals with minimal knowledge about shamanism, spiritual healing and the application of energy medicine. However, the program is open to all, regardless of their current knowledge or skill level. It is anticipated that individuals with prior training in shamanism or other spiritual healing techniques and traditions will be attending the training.

The goal of this program is to gain knowledge of spiritual healing and apply the healing techniques to our life, so we may transform our consciousness and awareness to practice the principle of ayni.

Some of the topics to be presented are the energy body system, shamanic journey, Andean cosmology, energy medicine, and the use of ceremony and ritual. Participants will learn how to journey to three worlds, build their first healing mesa and receive Rites of Passage of the Shaman Eyes and Protective Bands for Power. Participants will receive certification for completion of the program.

Munay, Paul
